Now, in just 30 days, master specific, easy-to-learn critical thinking techniques that help you cut through lies, gain insight, and make smarter choices in every area of your life -- from work and money to intimate relationships. World-renowned critical thinking experts Dr. Linda Elder and Dr. Richard Paul show how to overcome poor thinking habits caused by self-delusion or out-of-control emotions... clarify what you really want... recognize what you don’t know... ask better questions... resist brainwashing, manipulation, and hypocrisy... critically evaluate what you’re told by advertisers, politicians, your boss, and even your family... avoid worrying, conformism, and blame. Every day, you’ll focus on a specific thinking habit, mastering practical strategies for achieving results, tracking your progress, gaining confidence, and getting smarter! Expanded, improved, and easier to use, Discover the Power of Critical Thinking, Revised and Expanded edition offers today’s most complete, practical plan for using critical thinking to build a better life. This edition adds five new "days" of critical thinking workouts, delivering even more powerful "life improvement" ideas. Brand-new illustrations and diagrams help you see the direct relevance of critical thinking in your own life, and you’ll find a practical new introduction to the authors’ Paul-Elder Framework for Critical Thinking, which is now being used by critical thinkers worldwide!

Previously published under title: 25 days to better thinking & better living.

This quick, 25-day plan for thinking more clearly and effectively in every area of life shows readers how desires and emotions distort thinking and how they can correct such situations.

Most of us feel “stuck with ourselves” at one time or another – and that negative aspects of our personality are deeply ingrained from childhood or genetics so therefore cannot be altered. But new studies have shown that changing aspects of your personality IS possible, giving new hope to anyone who wants to improve results in personal, family, business, and civic relationships. Based on the latest information from the fields of neuroscience and psychology, Dr. Gary Small presents a proven program anyone can use to assess their strengths and weaknesses, and then work on changing their negatives to positives. Small provides step-by-step advice that can show results in as little as 30 days. SNAP covers the difference between genetic personality traits and how your family experiences and the community you grow up in influences your personality – the key aspects of social programming. He then explains how it is possible to “reboot” your personality in order to become a more positive person., or to improve other aspects of personality such as being an introvert versus an extravert. Included is a self-assessment that readers can also use with friends and family. Also covered will be choosing and working the right psychotherapists, the upside and drawbacks of medications and alternative holistic therapies.

Have you ever . . . Invested time in something that, in hindsight, just wasn't worth it? Paid too much in an eBay auction? Continued to do something you knew was bad for you? Sold stocks too late, or too early? Taken credit for success, but blamed failure on external circumstances? Backed the wrong horse? These are examples of what the author calls cognitive biases, simple errors all of us make in day-to-day thinking. But by knowing what they are and how to identify them, we can avoid them and make better choices: whether in dealing with personal problems or business negotiations, trying to save money or earn profits, or merely working out what we really want in life—and strategizing the best way to get it. Already an international bestseller, *The Art of Thinking Clearly* distills cutting-edge research from behavioral economics, psychology, and neuroscience into a clever, practical guide for anyone who's ever wanted to be wiser and make better decisions. A novelist, thinker, and entrepreneur, Rolf Dobelli deftly shows that in order to lead happier, more prosperous lives, we don't need extra cunning, new ideas, shiny gadgets, or more frantic hyperactivity—all we need is less irrationality. Simple, clear, and always surprising, this indispensable book will change the way you think and transform your decision making—at work, at home, every day. From why you shouldn't accept a free drink to why you should walk out of a movie you don't like, from why it's so hard to predict the future to why you shouldn't watch the news, *The Art of Thinking Clearly* helps solve the puzzle of human reasoning.

Develop lateral thinking skills and improve brain power. The goal is to find a logical explanation for what appears to be an illogical situation. Do the puzzles with a friend, taking turns being puzzle setter and solver. By asking yes-or-no questions the solver attempts to find the solution within 20 minutes. One of "The Year's best puzzle books."--Games World of Puzzles. 96 pages, 5 3/8 x 8 1/4.

A daily dose of inspiration and motivation to happy thinking. 30 Days of Positive Thinking: A "How-to-Feel-Happy" Guide is a handbook with daily affirmations (mantras) and techniques to give focus to positive thinking. Use the book in two ways: 1) open the book to the date of the month or 2) close your eyes and let your fingers stop the page your soul needs that day. Either way, you will always read what you need to hear each day. The handbook will guide your focus to something positive. Keep the handbook on your night stand, in the bathroom, or in your travel bag. It will soon be a friend you go to for daily motivation and support.
