REVISED AND UPDATED 2011 EDITION The essence of adolescence hasn't changed since this book was first published in 2005. Their brains haven't skipped a growth spurt; their search for identity hasn't been called off or even detoured; they haven't forgotten how to speak with the ease of attitude. And yet, fingers fly across keys to a host of new adolescent domains--from texting to iTunes, from chats to anything-on-demand. This update traverses new adolescent territory, both charted and uncharted, to bring parents up-to-speed on what to expect and how to deal. Every teenager keeps secrets, and if you're like most parents, you worry about what your kids don't tell you--especially when they prefer text messages and social networking sites to face-to-face conversation. Now this popular guide has been revised and updated to address the challenges parents face with a wired and Web-savvy generation. Jenifer Lippincott and Robin Deutsch offer a deceptively simple plan for talking to your kids that's based on a simple set of rules: Teens need to stay safe, show respect, and keep in touch--online, and in real life.

Having pets is almost as American as apple pie and cheeseburgers. Dogs are thought to be man's best friend, and people take in these animals without a second thought a lot of the time. However, if you don't have previous experience with dogs or a sound understanding of their psychologies and perspectives, chances are your relationship with your dog, and the dog's life will suffer as a result. People love to take out their inability to understand their pets on their pets. They lack patience and understanding for these animals, who, without their approval, were taken from their place in the wild and domesticated for human use. Just because people believe that humans are at the top of the ladder, animals have come to be seen as beneath us and meant to serve people.

Leah I didn't belong in their world, but I made a good show of pretending I did. Mother and Father expected it. All I wanted to do was get a cosy cottage in the suburbs and live with my million cats. What I got instead was suitor after suitor paraded in front of me and the threat of a looming engagement. So, what else was a girl to do? After bumping into Mrs Fortescue's "companion" one too many times, I decided he'd do. Mother and Father wanted an engagement? They'd get one. Except I'd be the one having the last laugh because Patrick is the total opposite of what my parents want in a son-in-law - his nickname is Hawk for goodness' sake - and I have no obligations to him in any department. But of course, the best laid plans make fools of us all and it's not long before I want him to hold me accountable only to him in EVERY department. There's just the small problem of him being completely unsuitable and without any inclination to settle down. If there's one thing I know about men, it's that it takes a remarkable woman to tame them. I know I'm a remarkable woman. I only hope it's not too late for this lady to tame her hawk. Patrick If there's one thing that makes a guy reconsider his womanising ways, it's seeing his best mate and his little sister settle down. If there's another, it's a gorgeous woman in a stunning red dress. But she's a part of a world I can only pretend to fit into and she's a damned lady - elegant and sophisticated - and she's totally off-limits to a grunt like me. Every time we meet, there's a look in her eyes that suggests she's far less sophisticated than she'd have me believe. And it's not long before this hawk is close to begging to relinquish his freedom, even just for one night. So, how could I say no when she needed my help? I was expertly qualified to serve, and if I got to be myself for once that was just icing. But the more time I spend with her, the more I want to be around her. The more it feels less like a job and more like something real. There's just the small problem of her being an heiress with obligations that don't include me and the job will only last so long. I don't know a lot about ladies, despite my remarkable ability to play a part. All I know is there's always more underneath the mask, and there's only one lady who can tame this hawk.

Raegan I was used to being the smartest person in a room, the nerd queen my boss looked to when things went wrong. And boy, did they go wrong. Super wrong. Enter Nico Daniels. Ex-military. Tall, built, smoking hot. He wears suits like they were poured onto his body. He has a mouth that would make Satan blush. And I thought my Nan was bossy? Nico makes her look tame. Girls like me want a guy as nerdy as them. Girls like me need a nerd on the streets and a beast in the sheets, but guys like that are practically impossible to find. They're rarer than the mythical unicorn, the legendary eight hours of sleep a night, or the fabled second orgasm. But a highly frustrated girl's only got so much restraint. So, maybe one night won't hurt? Or two. Nico and I are all sorts of wrong for each other. Sure, the guy makes me scream his name in absolute ecstasy. But the rest of the time I want to smash my keyboard over his cocky head. And that's really not conducive to a healthy relationship. If only the man who was a beast in the sheets was a nerd on the streets. If only we had something in common. I need a little nerd in my man and Nico Daniels is anything but nerd. Isn't he? Nico I hated roleplay. I was bad at it. So, what's my new job? Play the jarhead security guard to some pixie who's got herself into a world of trouble with some shady online shit. The big boss likes his security to look the part. My boss likes to keep him happy. So, it's Converse and nerdy t-shirts off, and tailored suits on and contacts in. Because the tech guy isn't quite so scary. Raegan Lane wasn't just in a world of trouble, she was in danger of troubling my strict, orderly world. The guy who's lived behind computers hasn't needed game in a long time, but this little nerd makes me want more than just a couple of games nights. She makes me want everything.

But I've hidden from the world for so long, I've forgotten how to human. Every time I think I've worked out how to open up to her, all my walls slam back into place. My nerd side has never been what's got ladies into bed - I've picked up a thing or two from my team mates. But that's the side this nerd queen would love, if only I'd let her know it. She's the code that could crack all my firewalls, but I'm not sure I know how to be the real me and be a guy someone could love. To keep her, I'm gonna need to let my nerd light shine bright.

Stephen Covey wrote, "The main thing is to keep the main thing the main thing." For men and women searching for truth amid the noise and clutter, this principle could never be more crucial. And while the church is tossed about by the same uncertainty, Robert Wolgemuth's provocative *7 Things You Better Have Nailed Down Before All Hell Breaks Loose* puts a stake in the ground and says, "Here's something you can count on, no matter what." In life you don't rise to the level of your circumstances; you fall to the level of your training. Grace and Faith Are Gifts 6. Belief and Works Are One 7. The Church Is God's Idea
