~~Hobbyist a model of skill and expertise | The Star~~

Weather forecast skill is often presented in the form of seasonal geographical maps. Forecast skill for single-value forecasts (i.e., time series of a scalar quantity) is commonly represented in terms of metrics such as correlation, root mean squared error, mean absolute error, relative mean absolute error, bias, and the Brier score, among others.

~~Forecast skill — Wikipedia~~

As the image below shows, these skills can be divided into 3 categories: accounting/finance, Excel, and problem-solving/logic/design. Top 10 financial modeling skills: #1 Accounting skills. In order to build a financial model, it's important to possess a solid understanding of accounting fundamentals. This includes concepts such as the matching principle, accruals, revenue recognition, non-cash items such as depreciation, amortization, and more.
