we say is not the words we use, but it is revealed through our tone and our body language. If you are leaning back in your chair with your arms crossed and a scowl on your face, and you say “ I like it ” , it will come across a lot different than if you are leaning forward in your seat with a grin saying the same words.

Body Language: 101: Discover the Psychology Secrets of How ...  
Interestingly, we're much more likely to believe your body language  
... especially if your words don't match your non-verbal messages.

It's estimated that more than 50% of our communication is  
determined by our body language. Leaning in, a tilt of the head,  
keeping an open posture are also excellent non-verbal listening  
messages.
