CCTV Lighting Guide; VMS Video Management Systems explained Operational Requirement. If CCTV is clearly the superior solution to achieve the objectives then the next stage is to decide what the system must do in order to satisfactorily meet those objectives. In CCTV jargon the must do factors are in the 'Operational Requirement' document.

An OR checklist is provided in section 3 to guide the CCTV user through these issues and provide a structured series of questions to answer, that will ultimately form a clear operational requirement that can be passed to a manufacturer or supplier. The third step is where a more detailed technical specification for the CCTV system is developed.
