Salvador Dalí and “The Wines of Gala” – Rodrigo Mammana

The Wines of Gala is very much a companion volume that, like its predecessor, blends the surrealistic with the straightforwardly instructive. Much of this surrealistic intoxication is down to the images; reproductions of Dalí’s oil paintings from throughout his career are interspersed both with illustrations he produced specifically for the book and various repurposed, surreally touched-up “appropriations” of paintings from the classical canon (the latter amusingly reminiscent of the ...

A designer who's "turned pie crust decorating into an art form" shows how to embellish an ordinary crust—for a creation as beautiful as any cake (Martha Stewart). Everyone knows that serving a pie for dessert makes guests happy. And serving one with a beautifully designed crust that makes guests swoon is even better. Pies can be as stunningly attractive as the most decorative cakes with the use of some basic techniques and the appropriate care when working with pie dough. The recipes and techniques in this book give any home baker the tools to create breathtaking works of pie art. From preparation of the dough to the last moments of baking, all methods are clearly presented using step-by-step photographs. A flat surface, rolling pin, sharp knife, and cookie cutters of different sizes and shapes make embellishing an ordinary pie crust easy. The 25 designs in this book, arranged by three levels of difficulty, range from graphic art styles to seasonal-inspired florals—offering the first guide to creating these stunning works of edible art. "[A] gorgeous cookbook...As the book progresses, so do your skills." —Taste of Home

One of Christopher Kimball's Six Favorite Books About Food A beautiful and deeply researched investigation into French cuisine, from the founding editor of *The Art of Eating* and author of *50 Foods*. In *THE FOOD AND WINE OF FRANCE*, the influential food writer Edward Behr investigates French cuisine and what it means, in encounters from Champagne to Provence. He tells the stories of French artisans and chefs who continue to work at the highest level. Many people in and out of France have noted for a long time the slow retreat of French cuisine, concerned that it is losing its important place in the country's culture and in the world culture of food. And yet, as Behr writes, good French food remains very, very delicious. No cuisine is better. The sensuousness is overt. French cooking is generous, both obvious and subtle, simple and complex, rustic and utterly refined. A lot of recent inventive food by comparison is wildly abstract and austere. In the tradition of great food writers, Edward Behr seeks out the best of French food and wine. He shows not only that it is as relevant as ever, but he also challenges us to see that it might become the world's next cutting edge cuisine. France remains the greatest country for bread, cheese, and wine, and its culinary techniques are the foundation of the training of nearly every serious Western cook and some beyond. Behr talks with chefs and goes to see top artisanal producers in order to understand what "the best" means for them, the nature of traditional methods, how to enjoy the foods, and what the optimal pairings are. As he searches for the very best in French food and wine, he introduces a host of important, memorable people. *THE FOOD AND WINE OF FRANCE* is a remarkable journey of discovery. It is also an investigation into why classical French food

is so extraordinarily delicious--and why it will endure.

In the popular imagination, possibly no other artist's work is more recognizable than that of Salvador Dali?. Indeed, for many he is the ultimate mad artist, whose singular vision remorselessly probed his own psychological depths. His nightmarish visions and bizarre landscapes express the angst and turbulence of the twentieth century. Dali?'s creativity embraced many different modes of expression and was never constrained by any one style. Over eight decades, the prodigious range of Dali?'s activity spanned every conceivable medium, from painting and drawing to sculpture, film, furniture, books, stage design and jewelry, not to mention his highly eccentric public persona, which could be considered an art form in itself.
