This book covers the new EDPM CSEC syllabus to be taught from September 2011. It introduces computing fundamentals, electronic communication and keyboarding techniques before teaching the Microsoft Office (2003 - 2010) skills required by the course. Next, students are shown several aspects of document preparation, complete with sample documents. After covering document management and ethics, it gives SBA tips and exam papers (with answers included on the CD). Exercises and summaries are found at the end of each chapter. The accompanying CD-ROM is packed with material including interactive revision questions, PowerPoint presentations, tutorial videos, exercise files and a comprehensive glossary.

Completely matching the CXC syllabus, Electronic Document Preparation and Management for CSEC provides comprehensive coverage and is a key text for all students taking the exam. This book offers plenty of examples showing processes step by step, Activities, Tasks and Test Yourself, along with exercises that meet the requirements of the SBA.

This text provides students with a wide understanding of what communication means, how we as humans communicate, what affects communication and ways of communicating effectively. Students will find this text to be an essential tool in helping them become better communicators both in school and society.
