Fixed Income Strategist, Saxo Bank Group Summary: This week we expect sovereigns to remain volatile globally. In the United States, investors are still holding on their short bond future positions, but a surge in Covid-19 cases together with President Trump not acknowledging a Biden win is keeping yields from rising.

Fixed Income Markets and Their Derivatives eBook by Suresh ...

Fixed income refers to any type of investment under which the borrower or issuer is obliged to make payments of a fixed amount on a fixed schedule. For example, the borrower may have to pay interest at a fixed rate once a year and repay the principal amount on maturity. Fixed-income securities can be contrasted with equity securities – often referred to as stocks and shares – that create no obligation to pay dividends or any other form of income. In order for a company to grow its ...
