Tectonic shifts are the direct result of the megatrends we reported on in the previous post and are inextricably connected to them. These tectonic shifts represent concrete, visible, and important changes we will see in our world along the road to

Download Free Future

2030. Some people, especially those in affected countries, will notice one or the other, or perhaps several of these trends, but only in “Global Trends 2030” do we see them compiled and connected.
