When they get to the museum, their history teacher announces that the students will be doing a scavenger hunt. They have a list of questions to solve, and the answers can be found in the museum's exhibits. The first team to finish with correct answers will get extra credit toward their history grade! First grade is a year of important new experiences for students and teachers alike. Some students will arrive knowing how to read, others will know a few letters of the alphabet, and most will be somewhere in between. Including dozens of reproducibles, this book guides first-grade teachers in the many decisions they face about how to orchestrate effective, appropriate, and engaging instruction. A special strength of the book is the authors' deep understanding of the oral language base of literacy learning - both reading and writing - and their expertise in differentiating instruction for English language learners.
