When guerrilla soldiers strike Santiago's village, they destroy everything in their path -- including his home and family. Santiago and his four-year-old sister escape, running for their lives. But the only way they can be truly safe is to leave Guatemala behind forever. So Santiago and Angelina set sail in a sea kayak their Uncle Ramos built while dreaming of his own escape. Sailing through narrow channels guarded by soldiers, shark-infested waters, and days of painful heat and raging storms, Santiago and Angelina face an almost impossible voyage hundreds of miles across the open ocean, heading for the hope of a new life in the United States.

Covers models manufactured through 1998.

When a troubled children's book author moves to their farm, two kids with troubles of their own hatch a scheme to swipe the ending of the final book in a bestselling series to get a reward from the book's publisher in this gorgeously written novel in the tradition of Wonder and Out of My Mind. Twelve-year-old Sara and her brother Hawk are told that they are not to bother the man—The Mister—who just moved into the silo apartment on their farm. It doesn't matter that they know nothing about him and they think they ought to know something. It doesn't matter that he's always riding that unicycle around. Mama told them no way, no how are they to bother The Mister unless they want to be in a mess of trouble. Trouble is the last thing Sara and her brother need. Sara's got a condition, you see. Marfan syndrome. And that Marfan syndrome is causing her heart to have problems, the kind of problems that require surgery. But the family already has problems: The drought has dried up their crops and their funds, which means they can't afford any more problems. Let alone a surgery to fix those problems. Sara can feel the weight of her family's worry, and the weight of her time running out, but what can a pair of kids do? Well, it all starts with...bothering The Mister.

"By day, Larue Donovan is a down-to-earth bookstore owner. But by night, she's a world-renowned psychic investigator dedicated to helping lost spirits find peace. Dead people won't leave her alone and Abraham Lincoln think she's in charge of her lovefile. Larue can handle ghosts and undead presidents. It's the living that drive her crazy. When Callahan Weiss moves to town, the handsome newcomer opens a coffee shop rights next door. She's smitten from the start, but she's not the only one—the boutique owner across the street has her eye on Callahan too, and uses witchcraft to fight dirty. When Callahan gets hit by a love spell, Larue will need more than a little help from her ghoul-friends to save the day"—Page [4] of cover.

All businesses strive for excellence in today's technology-based environment in which customers want solutions at the touch of a button. This highly regarded textbook provides in-depth coverage of the principles of operations and supply chain management and explains how to design, implement, and maintain processes for sustainable competitive advantage. This text offers a unique combination of theory and practice with a strategic, results-driven approach. Now in its fourth edition, Operations Management for Business Excellence has been updated to reflect major advances and future trends in supply chain management. A new chapter on advanced supply chain concepts covers novel logistics technology, information systems, customer proximity, sustainability, and the use of multiple sales channels. As a platform for discussion, the exploration of future trends includes self-driving vehicles, automation and robotics, and omnichannel retailing. Features include: A host of international case studies and examples to demonstrate how theory translates to practice, including Airbus, Hewlett Packard, Puma, and Toyota. A consistent structure to aid learning and retention: Each chapter begins with a detailed set of learning objectives and finishes with a chapter summary, a set of discussion questions and a list of key terms. Fully comprehensive with an emphasis on the practical, this textbook should be core reading for advanced undergraduate and postgraduate students of operations management and supply chain management. It would also appeal to executives who desire an understanding of how to achieve and maintain 'excellence' in business. Online resources include lecture slides, a glossary, test questions, downloadable figures, and a bonus chapter on project management.

American sports icon Tim Tebow shares how he faces pressure head-on and the wisdom he's learned—not from what the world says, but from what God says in His Word The world does not define you Nobody said your life would be easy. And the older you get, the more difficult it seems to become. Deep down you may know your value as a person isn't defined by wearing cool name-brand clothes, scoring points for a sports team or even by having a huge number of social media followers. And you're right! Your identity resides in something—in fact, Someone—much greater than anything this world can offer: the only identity worth having . . . is found in Jesus Christ! Tim Tebow will guide you through thirty-six weeks of lessons, each based on a key Scripture, to discover who you are—by learning more about whose you are! You'll have the opportunity to write down your thoughts, feelings, and ideas on topics such as: • Building godly character • Maintaining great relationships • Standing out from the crowd • Doing things that matter in the big picture Get ready to live bigger than ever before . . . with your faith and identity secure in a God who loves you beyond measure!
