ISO/IEC 27002:2013 gives guidelines for organizational information security standards and information security management practices including the selection, implementation and management of controls taking into consideration the organization's information security risk environment (s). It is designed to be used by organizations that intend to:

~~ISO - ISO/IEC 27002:2013 - Information technology ...~~

ISO/IEC 27002:2013 is the new international Standard which supports the implementation of an ISMS based on the requirements of ISO27001. If you are implementing or thinking about implementing an ISMS, you need both of these standards as your principle point of reference. ISO 27001 is the only security Standard that takes an integrated approach to information security, addressing the three essential facets of cyber security (people, processes and technology) in a single cohesive strategy.

ISO/IEC 27001:2013 and ISO/IEC 27002:2013 Includes both the new (autumn 2013) editions of ISO/IEC 27001 and ISO/IEC 27002. Is made up of both new International Standards that have been updated to reflect international best practice for information security. Books Introduction to Information Security and ISO 27001

~~Comparing ISO 27001:2005 to ISO 27001:2013~~

Update 2013-09-25: This blog post was updated according to the final version of ISO 27002:2013 that was published on September 25, 2013. In my previous blog post I analyzed the changes between the old ISO 27001 (published in 2005) and the 2013 revision; naturally, controls from ISO 27001 Annex A cannot change without changing ISO 27002 because the essence of these two standards is to be aligned.

~~ISO 27002:2013 - Main changes in the structure~~

Therefore this version remains current. Abstract Preview ISO/IEC 27001:2013 specifies the requirements for establishing, implementing, maintaining and continually improving an information

security management system within the context of the organization.

~~ISO – ISO/IEC 27001:2013 – Information technology ...~~

The controls in ISO 27002 are named the same as in Annex A of ISO 27001 – for instance, in ISO 27002, control 6.1.2 is named “Segregation of duties,” while in ISO 27001 it is “A.6.1.2 Segregation of duties.”

~~ISO 27001 vs. ISO 27002 – What's the difference?~~

ISO/IEC 27001:2013 The internationally acclaimed standard for information security management (ISO/IEC 27001) and accompanying ISO/IEC 27002, ‘Code of practice for information security management controls’ was revised in October 2013.
