Ludi in English with contextual examples - MyMemory

2nd translation: caerimonia The slave lead Salvius and Quintus to the atrium. Those men, after they entered the atrium, saw a large crowd. Many British chiefs were in the atrium. Many women were sitting with the chiefs. They were having conversations among themselves. Many romans were also present, who were sitting near the chiefs. This crowd, which was filling the atrium, was making a large ...

Theatre flourished in the Roman Republic, from the tragedies of Ennius and Pacuvius to the comedies of Plautus and Terence and the mimes of Laberius. Yet apart from the surviving plays of Plautus and Terence the sources are fragmentary and difficult to interpret and contextualise. This book provides a comprehensive history of all aspects of the topic, incorporating recent findings and modern approaches. It discusses the origins of Roman drama and the historical, social and institutional backgrounds of all the dramatic genres to be found during the Republic (tragedy, praetexta, comedy, togata, Atellana, mime and pantomime). Possible general characteristics are identified, and attention is paid to the nature of and developments in the various genres. The clear structure and full bibliography also ensure that the book has value as a source of reference for all upper-level students and scholars of Latin literature and ancient drama.

Fratantuono and Smith provide the first detailed consideration of Book 5 of Virgil's Aeneid, with introduction, critical text, translation and commentary.

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Phillipic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Phillipic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

An edition of a collection of Latin epigrams by the poet Martial to celebrate games held in the Colosseum. An introduction sets the epigrams in their literary and social context. Each epigram is followed by an English translation and a detailed commentary discussing matters of linguistic, literary, and historical interest.

Focusing on a period neglected by scholars, Higgins reconstructs how during the colonial period criollos - individuals identified as being of Spanish descent born in America - elaborated a body of knowledge, an "archive," in order to establish their intellectual autonomy within the Spanish colonial administrative structures." "This book opens up an important area of research that will be of interest to scholars and students of Spanish American colonial literature and history."--BOOK JACKET.
