Pivotal role in patient care for radiographers Delivering consistent levels of education and training throughout Europe remains an important challenge as radiographers play an increasingly pivotal role in patient care and patient safety.

Pivotal role in patient care for radiographers

The imaging staff found that care is expressed in an administrative, an instrumental, and a compassionate sense. The imaging staff perceived care in a way that clearly differs from the traditional perception of care understood as the close relations between people.

"Patient Care in Radiology"--The Staff's Perspective

We welcome radiography research submissions that embrace robust and innovative qualitative, quantitative and mixed method approaches. Radiography is essential reading for researchers, radiographer practitioners*, radiography educators and student radiographers. We aim to influence clinical practice and patient care by informing practitioners, managers, leaders and policy makers working within or aligned to clinical imaging and radiation therapy services.
