Patients and Healers in the Context of Culture presents a theoretical framework for studying the relationship between medicine, psychiatry, and culture. That framework is principally illustrated by materials gathered in field research in Taiwan and, to a lesser extent, from materials gathered in similar research in Boston.

Patients and Healers in the Context of Culture: An ...

Patients and Healers in the High Roman Empire offers a fascinating holistic look at the practice of ancient Roman medicine. Ido Irsaelowich presents three richly detailed case studies one focusing on the home and reproduction; another on the army; the last on medical tourism from the point of view of those on both sides of the patient-healer divide.
