living in the  
Imagination Age.

Intuitive and creative thinking skills are as valuable as “hard skills” and are unique to each one of you. You have these innate skills—all you have to do is unleash them. Join up. What does imagination have to do with leadership? Ever

File Type PDF

Pint Sized

since he was in college, Brian Paradis has been intrigued by the question, “What does imagination have to do with leadership?” For thirty years, he studied this puzzle as he honed his business and leadership skills, and one thing

File Type PDF

Pint Sized

became crystal  
clear: imagination  
has a powerful  
influence on  
leadership. The  
compelling  
combination of  
leader +  
imagination = an  
opportunity to  
unleash all kinds of  
potential. The world  
is increasingly  
complex, knowledge

File Type PDF

is advancing at an unfathomable rate, and the problems in our world seem unsolvable.

Organizations are in near constant and disruptive

transition, and the cultures that define them are

disconnected, disaffected, and divisive. Too many

File Type PDF

Pint Sized

Leaders show up to work wondering if any of it matters.

We are “smarter” than any generation in history, but that isn't the problem.

The problem is imagination is not advancing at the same pace. But where there's a closed door, there's an open window of

opportunity for  
those willing to  
walk through, to  
take a risk, and see  
what others don't.

Lead with  
Imagination

returns on your  
investment of time  
from reading it: You  
will be inspired by  
the possibilities and  
strengthened

against the  
challenges. You will  
gain power and  
confidence to  
imagine, create, and  
innovate. We are all  
born with innate  
imagination and  
curiosity—learn how  
to use it. You will  
release your fullest  
potential and help  
release the  
potential of those

you lead. We all learned as kindergarteners to assimilate quickly by giving the teacher (society) the desired answer, and to “fit in.” That colored our thinking from that moment forward and restricted our thinking and use of imagination. But
