Needles/Powers/Crosson delivers a new Three Section Approach that mirrors the way instructors have told us they teach and students best learn. Moving students through Concepts, then Accounting Applications, and finally Business Applications, students follow a logical progression through the material and building on what they know. The new Tri-Level Problem in CengageNOW supports this approach.

Needles/Powers/Crosson PRINCIPLES OF ACCOUNTING is continuously evolving to meet the needs of today's learner. This edition's new structure is based on research with students about the best way to deliver content in this course! The chapters in Needles/Powers/Crosson have been organized into the Three Section Approach, which helps you more easily digest the content. The first section is Concepts and focuses on the overarching accounting concepts that require consistent reiteration throughout the course. With a clear understanding of the concepts, you are then ready to experience the second section--Accounting Applications. Here you practice the application of accounting procedures with features like Apply It and a new transaction analysis model, which clearly illustrates how transactions are the result of business decisions and recorded in a way to show their effects on the financial statements. Finally, you utilize section three, Business Applications. This section illustrates how the concepts and procedures are used to make business decisions. Real company examples are used throughout the chapter to show students the relevance of the material. This logical progression through the material is further supported in the online environment in CengageNOW with the Tri-Level Problem. This problem mirrors the Three Section Approach and connects the sections to facilitate a more complete understanding. These substantial changes will make you a more efficient learner and are designed to prepare you for a business world increasingly complicated by ethical issues, globalization. proprietorship approach and move at a slower pace than a corporate financial accounting course. New! Blackboard Course Cartridges and WebCT e-Packs deliver course content over the Internet and can be used in a traditional classroom setting or as a complete distance learning solution. Customized course materials include reviews, quizzes, activities, solutions, PowerPoint slides, and more. New! Teaching Accounting Online, an interactive Web-based workshop, allows faculty to design and deliver online accounting courses. New! Discussion and assignment materials include more financial statements and excerpts from real company reports to promote decision making through the use of real-world financial information. New! An increased focus on cash flow throughout the text highlights the effect of business activities on cash flow. New! "Focus on Business" boxes emphasize business strategy as it relates to the key themes of ethics, practice, technology, and international issues. Each box provides insights into real companies, including start-ups and e-commerce businesses. New! "Decision Points," based on excerpts from annual reports and business journals, promote critical thinking and decision making by presenting students with a situation that requires them to make a decision using accounting information. Decision Points in the financial chapters are presented from "A User's Focus" while the Decision Points in the managerial chapters provide "A Manager's Focus." New! In most chapters, the opening Learning Objective highlights the focus on management by exploring how managers use accounting information to make decisions. New! The text examines performance measurement by integrating the concept of using financial information in performance evaluation. New! An annotated Chapter 1 helps students understand the purpose and value of the book's pedagogical framework and how to use it to their advantage.
