make it easy to learn the features of each anatomical region. Species-specific icons on the front of the card allows for reorganization by animal. Comprehensive veterinary anatomy coverage provides the best, most effective review available. Part of Elsevier's complete veterinary anatomy learning system, integrating core anatomy knowledge, engaging review, hands-on practice, and clinical application to give you a solid foundation for success!

Color your way to a complete mastery of veterinary anatomy with Veterinary Anatomy Coloring Book, 2nd Edition. Approximately 400 easy-to-color illustrations and corresponding anatomical descriptions guide you through the head, neck, back, thorax, abdomen, extremities, reproductive organs, and many more body parts of dogs, cats, horses, pigs, cows, goats, and birds. Plus, a new section on exotics takes you through the anatomy of ferrets, rodents, rabbits, snakes, and lizards to ensure you are well versed in all potential household pets. With this vivid change-of-pace study tool, you have the freedom to master veterinary anatomy in a fun and memorable way. Over 400 easy-to-color illustrations created by expert medical illustrators shows anatomy in detail and makes it easy to identify specific structures for an entertaining way to learn veterinary anatomy. Regional section organization (the head and ventral neck; neck, back, and vertebral column; thorax; abdomen; pelvis and reproductive organs; forelimb; and hindlimb) allows students to easily compare the anatomy of multiple species. Numbered lead lines clearly identify structures to be colored and correspond to a numbered list beneath the illustration. NEW! Section on exotics covers the anatomy of ferrets, rodents, rabbits, snakes and lizards in addition to the anatomy of dogs, cats, horses, pigs, cows, goats, and birds.

Take your understanding of histology one step further with Netter's Histology Flash Cards. Specially designed to help you master what you need to know, these 200 flash cards are designed to reinforce your understanding of how the human body works in health as well as illness and injury. Classic anatomy illustrations from medical illustrator Frank H. Netter, MD provide strong visual aids and memorable diagrams to facilitate learning. Extensive additional images, including light and electron micrographs, provide an even more comprehensive study experience. Review salient microscopic features of cells, tissues, and organs of the body thanks to beautiful Netter illustrations and histology slides. Study basic biological and histological principles as well as the clinical relevance of histological structure and function through concise textual summaries. Recognize and interpret microscopic sections quickly thanks to an at-a-glance organization. Master the histology knowledge you need to know by using these flash cards in conjunction with Netter's Essential Histology, 2nd Edition, also by Drs. Ovalle and Nahirney. They're completely cross referenced to the Netter's Essential Histology text so it's easy to find more in-depth information on

"...covers canine, feline, equine, porcine, ruminant and avian anatomy"-- P. iii.

Mosby ' s Anatomy & Physiology Study and Review Cards, 2nd Edition helps students learn and retain the fundamentals of Anatomy and Physiology. Divided into 20 color-coded sections, more than 330 cards cover all of the body systems with a vivid mix of illustrations, tables, quizzes and labeling exercises. The vibrant illustrations and supporting text will make the most of study time while improving comprehension and retention. 330 sturdy, full-color flash cards based on Patton & Thibodeau content enhance your understanding and retention of A&P concepts. Labeling flashcards with image on the front and label key on the back are ideal for visual learners to practice anatomy identification and grasp anatomical relationships. Hundreds of study questions on cards with answers on the back help reinforce core content. Convenient, portable size lets you study A&P on the go. New and updated illustrations from Patton textbooks make transitioning from reading to studying seamless. New and revised questions ensure you have the best A&P preparation possible. All cards reflect the latest content from the Patton & Thibodeau texts to provide you with the most up to date A&P content.

Each flashcard features a full-color illustration from Netter's Atlas of Human Anatomy, 5th Edition, with numbered lines pointing to key structures. This is followed by, concise text which identifies those structures and reviews relevant anatomical information and clinical correlations. Online access at studentconsult.com lets you further test your knowledge with additional "bonus" cards.
