Substance abuse treatment for a disabled individual must be sensitive to each person ' s unique health, medical, and social needs. In order for treatment to be effective, rehabilitation programs must be accessible, compassionate, and skilled at treating both the disability and substance use disorder.

---

Substance Abuse Treatment for Persons with Disabilities ...

The current trend in substance abuse treatment is a move away from specialist treatment settings, in part because of the effects of managed care and because people with substance abuse issues do not always end up in treatment (i.e. they often end up in jails or hospitals). One result of this trend has been increased emphasis on brief interventions.
