If ever there was an area requiring that the research-practice gap be

bridged, surely it occurs where thanatologists engage with people dealing with human mortality and loss. The field of thanatology—the study of death and dying—is a complex, multidisciplinary area that encompasses the range of human experiences, emotions, expectations, and realities. The Handbook of Thanatology is the most authoritative volume in the field, providing a single source of up-to-date scholarship, research, and practice implications. The handbook is the recommended resource for preparation for the prestigious certificate in thanatology (CT) and fellow in thanatology (FT) credentials, which are administered and granted by ADEC.

"Occasionally I read a book and say to myself that this is a book that I wished I had written. This is such a book! It is a delightful,

practical, interesting, and inspiring book! Danai has written a soon-to-be classic in the field! Her writing is excellent! Her use of theories, concepts, history, and models are wonderful!"--Illness, Crisis and Loss "Danai Papadatou Ö [presents] an approach of Relational Care, care based on an understanding of relationships, that should be essential reading Ö.[S]he writes in an engaging and non-technical language, and manages to convey complex ideas in a manner that is accessible to all." --Colin Murray Parkes, OBE, MD, FRCPsych President, Cruse: Bereavement Care (From the Foreword) ì [A] wonderful contribution to the literature on caregiving and her well thought out ideas about relational caregiving are on the cutting edge. Congratulations. î -- Lynne Ann DeSpelder CoAuthor, The Last Dance: Encountering Death and Dying, 8th edition "This is no ordinary academic textbook. It is

nothing short of a masterpiece in which Papadatou provides the field of death, dying and bereavement with invaluable and constructive insights into the world of caring for the dying and bereaved."--Grief Matters "This is a fascinating book, applying important theoretical models in order to describe and speculate about how professionals manage to work in an environment where suffering and grief are constantly present. This is an important and substantial addition to the mostly self-help literature about self-care for caregivers."--Doody's Medical Reviews In the Face of Death explores the experiences of health care professionals who care for the seriously ill, the dying, and the bereaved. In this book, Danaï Papadatou offers a practical approach to caregiving, as well as a breadth and depth of insight into both the patient's and the caregiver's responses to death. The author discusses the issues and

challenges health care professionals face when treating dying and bereaved patients. Topics include: compassion fatigue, the inevitability of suffering and the potential for growth, suffering in the workplace, team functioning in death situations, and team resilience. The main themes are: The Caring Relationship focuses on the relationship between the care provider and the person who is dying or grieving, and proposes a new, relationship-based model of care The Care Provider in Death Situations addresses the health professional's personal responses to death, using a model that illustrates the grieving process of the health professional The Team in the Face of Death provides recommendations for effective, interdisciplinary care services that support dying or bereaved patients as well as the health care provider

Providing an understanding of the relationship with death, both as an individual and as a member of society. This book is intended to contribute to your understanding of your relationship with death, both as an individual and as a member of society. Kastenbaum shows how individual and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss. Robert Kastenbaum is a renowned scholar who developed one of the world's first death education courses and introduced the first text for this market. This landmark text draws on contributions from the social and behavioral sciences as well as the humanities, such as history, religion, philosophy, literature, and the arts, to provide thorough coverage of understanding death and the dying process. Learning Goals Upon completing this book, readers should be able to: -Understand the relationship with death, both as an

individual and as a member of society -See how social forces and events affect the length of our lives, how we grieve, and how we die -Learn how dying people are perceived and treated in our society and what can be done to provide the best possible care -Master an understanding of continuing developments and challenges to hospice (palliative care). -Understand what is becoming of faith and doubt about an afterlife

Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom

you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?"
