Voices of Terror

An gripping look inside international violence and terrorism.

When her Great-Aunt Rachel died, Heather inherited the old woman's house. But it wasn't until she went to live in it that she found the letter her aunt had never mailed. "They come in the night," the letter said. "Strange noises that come from nowhere, like whispers."

Origins Long Forgotten, a collection of stories written by Raener Lewington, contains 18 short tales and poems to tickle the fancy of those who would like to hear urban legends and tales. This short collection contains tales in different styles and fashions of horror to tickle the fancies of most readers. Origins Long Forgotten is a short collection that is certainly worth picking up, and each tale is not worth the wait, for once you begin reading, you cannot look away, no matter how dark it gets.

The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters. David Chandler, a world-renowned historian of Cambodia, examines the Khmer Rouge phenomenon by focusing on one of its key institutions, the secret prison outside Phnom Penh known by the code name "S-21." The facility was an interrogation center where more than 14,000 "enemies" were questioned, tortured, and made to confess to counterrevolutionary crimes. Fewer than a dozen prisoners left S-21 alive. During the Democratic Kampuchea (DK) era, the existence of S-21 was known only to those inside it and a few high-ranking Khmer Rouge officials. When invading Vietnamese troops discovered the prison in 1979, murdered bodies lay strewn about and instruments of torture were still in place. An extensive archive containing photographs of victims, cadre notebooks, and DK publications was also found. Chandler utilizes evidence from the S-21 archive as well as materials that have surfaced elsewhere in Phnom Penh. He also interviews survivors of S-21 and former workers from the prison. Documenting the violence and terror that took place within S-21 is only part of Chandler's story. Equally important is his attempt to understand what happened there in terms that might be useful to survivors, historians, and the rest of us. Chandler discusses the "culture of obedience" and its attendant dehumanization, citing parallels between the Khmer Rouge executions and the Moscow Show Trails of the 1930s, Nazi genocide, Indonesian massacres in 1965-66, the Argentine military's use of torture in the 1970s, and the recent mass killings in Bosnia and Rwanda. In each of these instances, Chandler shows how turning victims into "others" in a manner that was systematically devaluing and racist made it easier to mistreat and kill them. More than a chronicle of Khmer Rouge barbarism, Voices from S-21 is also a judicious examination of the psychological dimensions of state-sponsored terrorism that conditions human beings to commit acts of unspeakable brutality.

"Anyone who wants to understand the world we live in now should read this book." —Lawrence Wright To eliminate the scourge of terrorism, we must first know who the enemy actually is, and what his motivations are. In Anatomy of Terror, former FBI special agent and New York Times best-selling author Ali Soufan dissects Osama bin Laden’s brand of jihadi terrorism and its major offshoots, revealing how these organizations were formed, how they operate, their strengths, and—crucially—their weaknesses. This riveting account examines the new Islamic radicalism through the stories of its flag-bearers, including a U.S. Air Force colonel who once served Saddam Hussein, a provincial bookworm who declared himself caliph of all Muslims, and bin Laden’s own beloved son Hamza, a prime candidate to lead the organization his late father founded. Anatomy of Terror lays bare the psychology and inner workings of al-Qaeda, the Islamic State, and their spawn, and shows how the spread of terror can be stopped. Winner of the Airey Neave Memorial Book Prize

Essay from the year 2007 in the subject Politics - International Politics - Topic: International Organisations, grade: 1,7, LMU Munich (Geschwister Scholl Institut fur politische Wissenschaft), course: Seminar: Introduction into Terrorism Research, 16 entries in the bibliography, language: English, abstract: Speaking about terrorism in a scientific way, it is inevitable to take into account the relationship between media and terrorism. As this essay wants to outline the main characteristics of how and why the transnational terror network Al Qaeda is designing its public appearance, a brief introduction into the general discussion on terrorism and the media is given in the following. The relationship between these two actors is often described as symbiotic or even one of "considerable mutual benefit." On the one hand the mass media can profit from the coverage of terrorist attacks because they can increase their circulation or viewing figures. On the other hand, terrorists achieve the wanted attention, convey the propaganda of the deed and inflict great fear on their target group(s). If successful, they can even mobilize wider support and influence political decisions of their enemies, in the way that they contribute to the desired escalation-spiral. This connection probably led former British Prime Minister Margaret Thatcher to the famous words 'oxygen of publicity': A comparison, which illustrates the absolute need for terrorists to be covered in the media; for them it is as important as the air they breathe. Some theorists are sharing the opinion, that terrorism only becomes what it is through the media coverage: "Without the media aspect, terrorism remains one more cause of death, one of many, and not necessarily the most important or most dangerous one." But despite the recognition of the so-called amplification effect, censorship is neither desirable nor realizable in open western societies. So it is often said, that we are here caught in a dilemma and the on"

Voices of Terror

A massive anthology of ground-breaking horror fiction, showcasing the next wave of horror superstars! Featuring the very best short stories and novellas from tomorrow's best-sellers, Shocklines will be one of the most-anticipated collections of the year! A great bargain of a book!

The global war on terror is not just a military conflict but a war of ideas. Indeed it is in some respects primarily an ideological struggle. Yet it is a war we cannot win without a broader understanding of al-Qaeda's goals and motives. What do our enemies believe? What motivates their war against the West? What is their vision of the ideal Islamic society? Surprisingly, more than five years after 9/11, there is very little understanding of these questions. Despite our tendency to dismiss Islamic extremism as profoundly irrational, al-Qaeda is not without a coherent body of beliefs. Like other totalitarian movements, the movement's leaders have rationalized their brutality in a number of published treatises. Now, for the first time, The Al Qaeda Reader gathers together the essential texts and documents that trace the origin, history, and evolution of the ideas of al-Qaeda founders Ayman al-Zawahiri and Osama bin Laden. This extraordinary collection of the key texts of the al-Qaeda movement—including incendiary materials never before translated into English—lays bare the minds, motives, messages, and ultimate goals of an enemy bent on total victory. Al-Qaeda’s chilling ideology calls for a relentless jihad against non-Muslim “infidels,” repudiates democracy in favor of Islamic law, stresses the importance of martyrdom, and mocks the notion of “moderate” Islam. Perhaps the most disturbing aspect of these works is how grounded they are in the traditional sources of Islamic theology: the Koran and the teachings of the Prophet. The founders of al-Qaeda use these sources as powerful weapons of persuasion, reminding followers (and would-be recruits) that Muhammad and his warriors spread Islam through the power of the sword and that the Koran is not merely allegory or history but literal truth that commands all Muslims to action. In addition to laying bare al-Qaeda’s ultimate motives, The Al Qaeda Reader includes the organization’s propagandist speeches, which are directed primarily at Americans, Europeans, and Iraqis. Here, al-Qaeda’s many "official" accusations against the West are meticulously delineated, from standard complaints such as the Palestinian issue and Iraq to wholly unexpected ones concerning the U.S.’s exploitation of women and the environment. Taken together, the Theology and Propaganda sections of this volume reveal the most comprehensive picture of al-Qaeda to date. They also highlight the double-speak of bin Laden and Zawahiri, who often say one thing to Muslims in their religious treatises ("We must hate and fight the West because Islam commands it") and another in their propaganda directed at the West ("The West is the aggressor and we are fighting back merely in self-defense"). Westerners from across the political spectrum will be fascinated and enlightened by The Al Qaeda Reader’s insights into the nature of Islamic texts and the ways in which al-Qaeda has used these texts to manufacture hatred against our civilization and our way of life.
